Broderies à la Campagne

In this book by Fabienne Bassang cross-stitching and country are two intermingled passions. For those of you who have loved her last work on Alsace traditional embroidery, here is Fabienne's travel in a magic country. In the "Memories" sections, Fabienne mingles past events with embroidery, thus recalling her childhood. But modernity is still present with objects like earrings, aprons, bags and so on. A delightful embroidery book. In French.
