## Addi™ Kingsize Knitting Machine

da: Gustav Selter

Modello: ACCTC-7890

With the Addi™ Express Kingsize Knitting Machine you can easily and quickly knit some circular tubulars. You just have to turn the handle!!

With the Kingsize version of Addi-Express (for the Professional version see the related products) you can make bigger items: the bigger diameter allows you to work with more stitches with less handle turns and, as for the professional version, it can be fixed to the table with the given clamps as to make the work more comfortable.

Sizes: 46 needles

Circular tool: Ø 35 cm.

Open tool: width 45 cm.

Note: you can fix the ideal width of your work with Addi-Stopper (see related products). 1 is included in the package.

In the pack we include a CD with the instructions and some utilisation examples in English, French and German, besides the Italian guide.

**Price: € 187.51** (incl. VAT)
